EIL Initiative

Start-Up India (SUI), a flagship initiative of the Government of India, intends to build a strong eco-system for nurturing innovation and Start-Ups in the country that will drive sustainable economic growth and generate large-scale employment opportunities. The Government through this initiative aims to empower Start-Ups to grow through innovation & design. In order to meet the objectives of this initiative, MoPNG intends to leverage the technological prowess of the oil & gas industry and harness an enabling mechanism within the CPSEs so that a sustained effort is made to promote the ideas and innovations in the Hydrocarbon value chain.

Broadly aligned to the adopted practice of Govt. of India, EIL intends to create an enabling system for promoting the “Start Up India (SUI)” initiative through

- Offering Intellectual support
- Offering Infrastructural support
- Offering Financial Support
